The Experiential Learning Requirement (ELR) is a graduation requirement for undergraduate students who entered UGA as first year or transfer students in Fall 2016. Only approved EL courses or activities will satisfy the requirement.

- The EL requirement varies by school/college. Each school/college’s faculty selects which approved activities fulfill the requirement for students within that school/college.

- An EL activity must go through the approval process (school/college submits courses or non-credit activities for approval by the University Curriculum Committee EL subcommittee) to satisfy the experiential learning requirement.

- Once a student fulfills the EL requirement, it stays fulfilled, even if the student changes majors and moves to a different college.
